

Quick Start Guide

& Printables

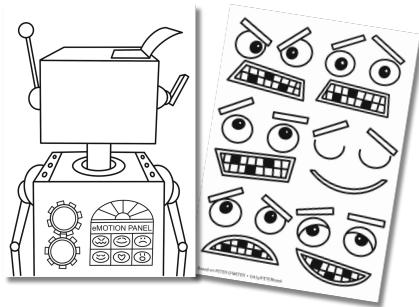

**Stop Motion Animation eMotion Bot Kit
based on PETER O'METER by Tricia Fuglestad**

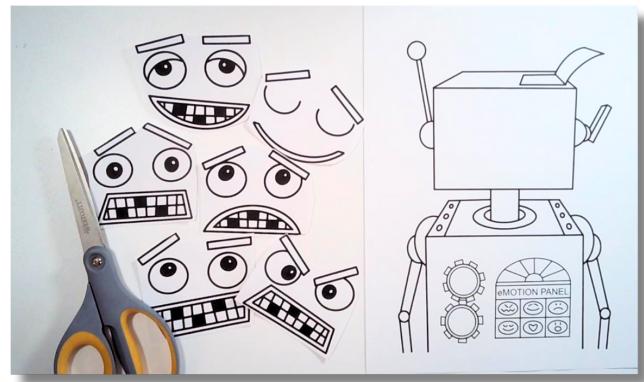

Teacher Goals
Publishing

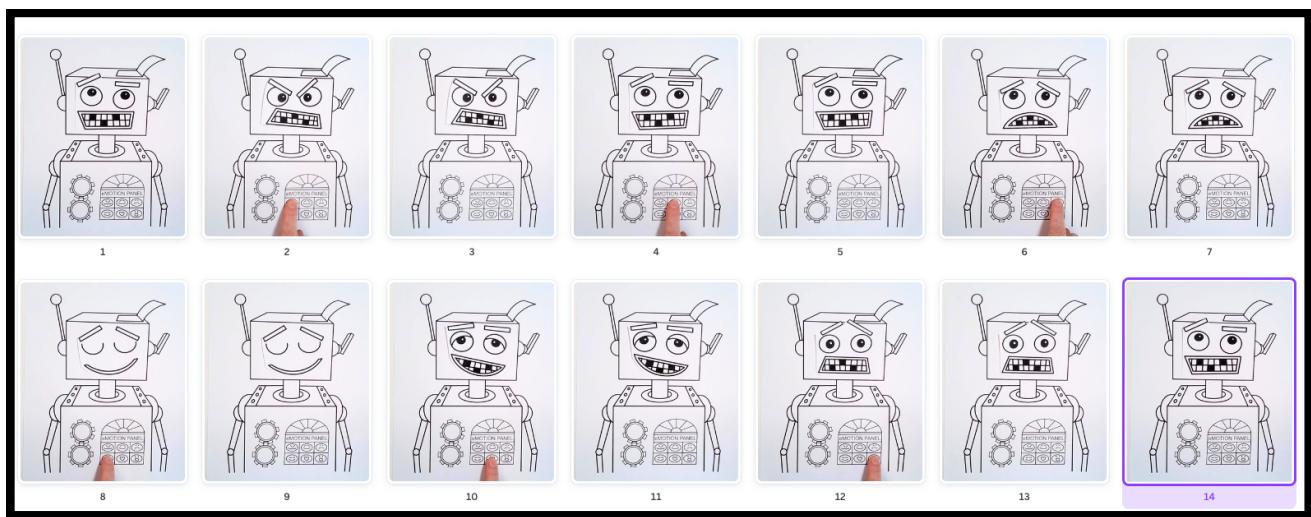

1. Print PETER and his six expressions on two sheets of paper

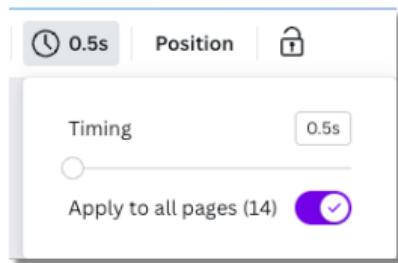

2. Cut out PETER's six expressions

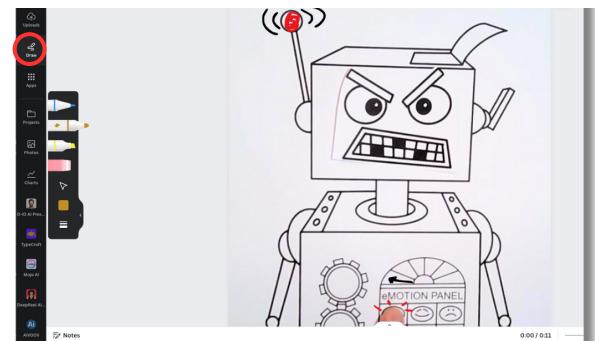

3. Tape down the portrait, steady your camera and take these 14 photos showing PETER's expression change with each press of a different button.

4. Add each photo to its own slide in canva with the same size & placement. [edit the timing of all slides to .5s. (same as 2 frames per sec)

5.

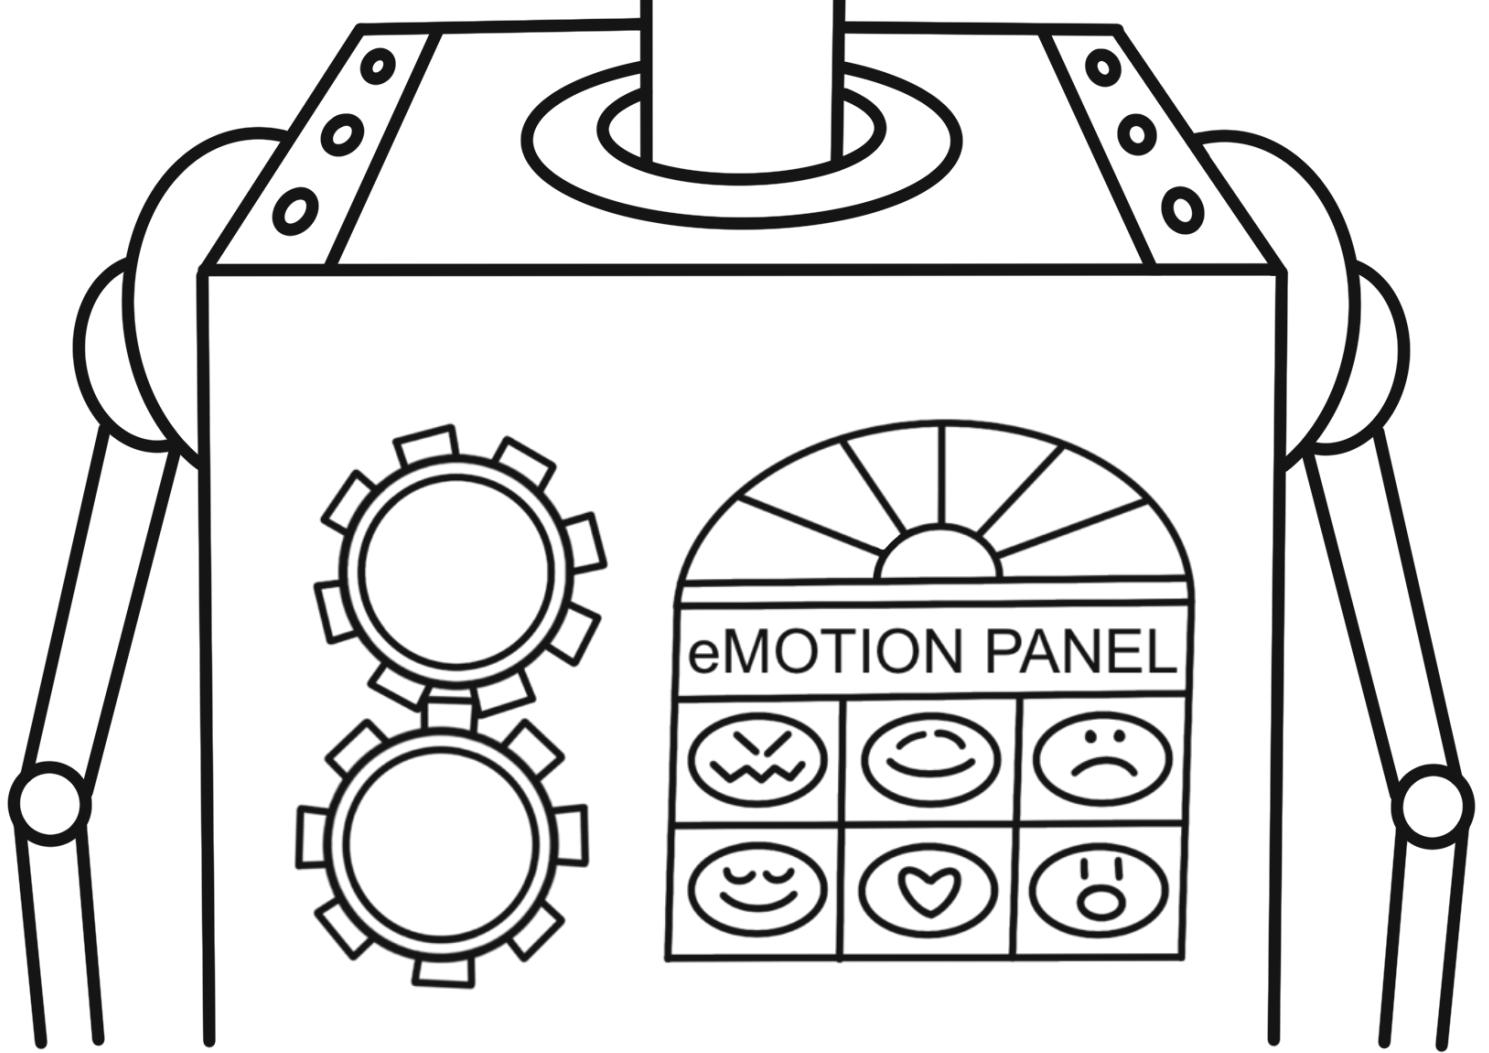

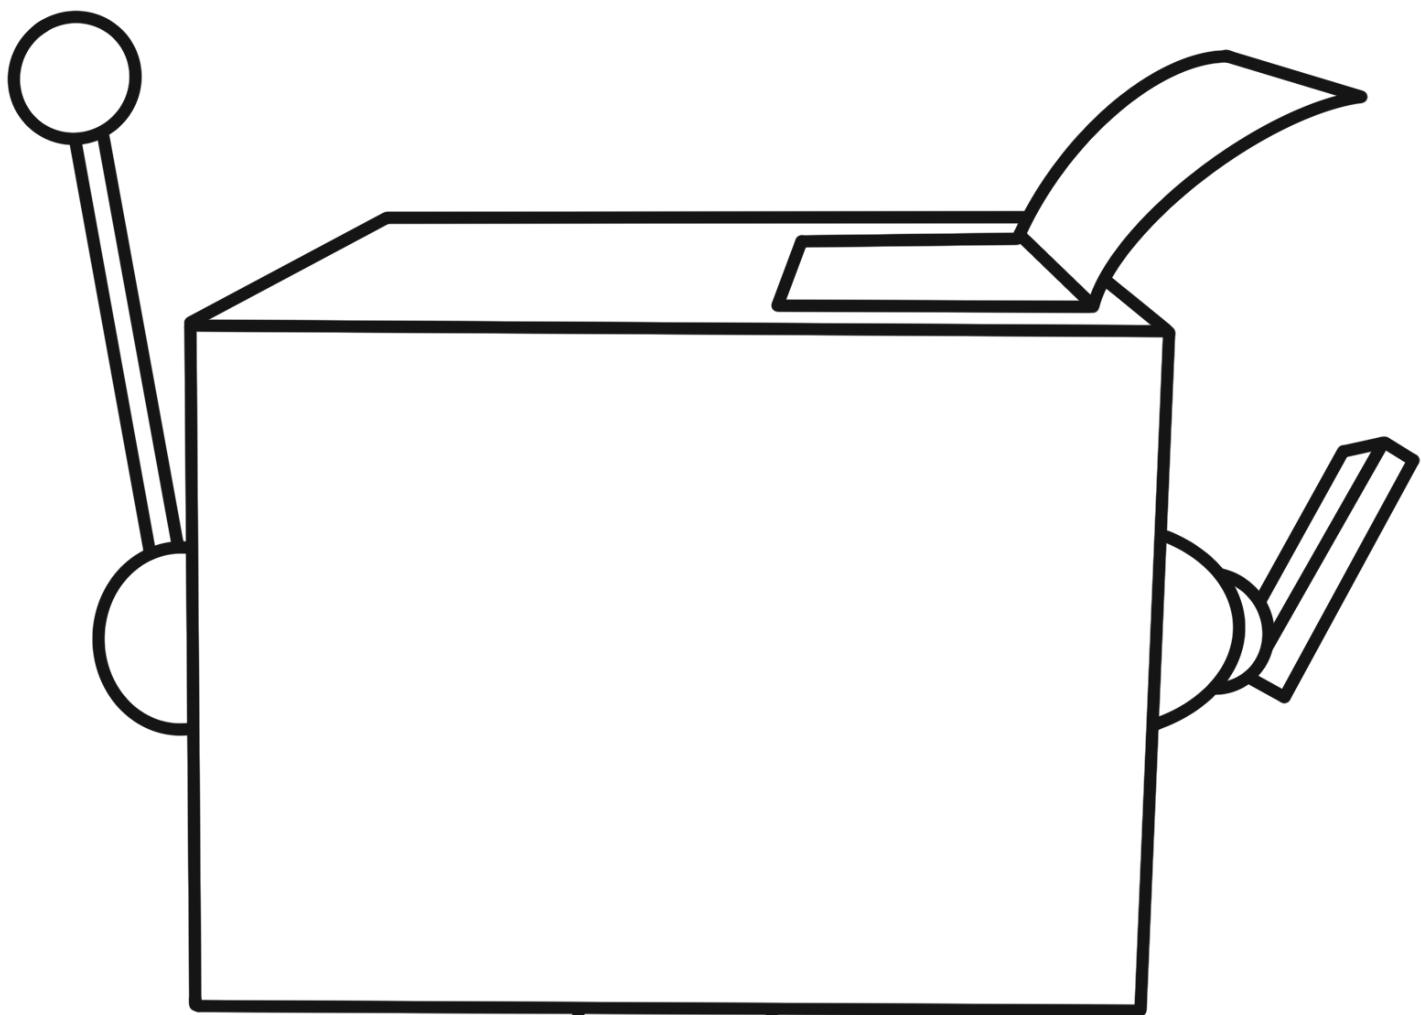

Use canva's drawing tools to make PETER's buttons light up, arrow move, and/or antenna glow when pressed.

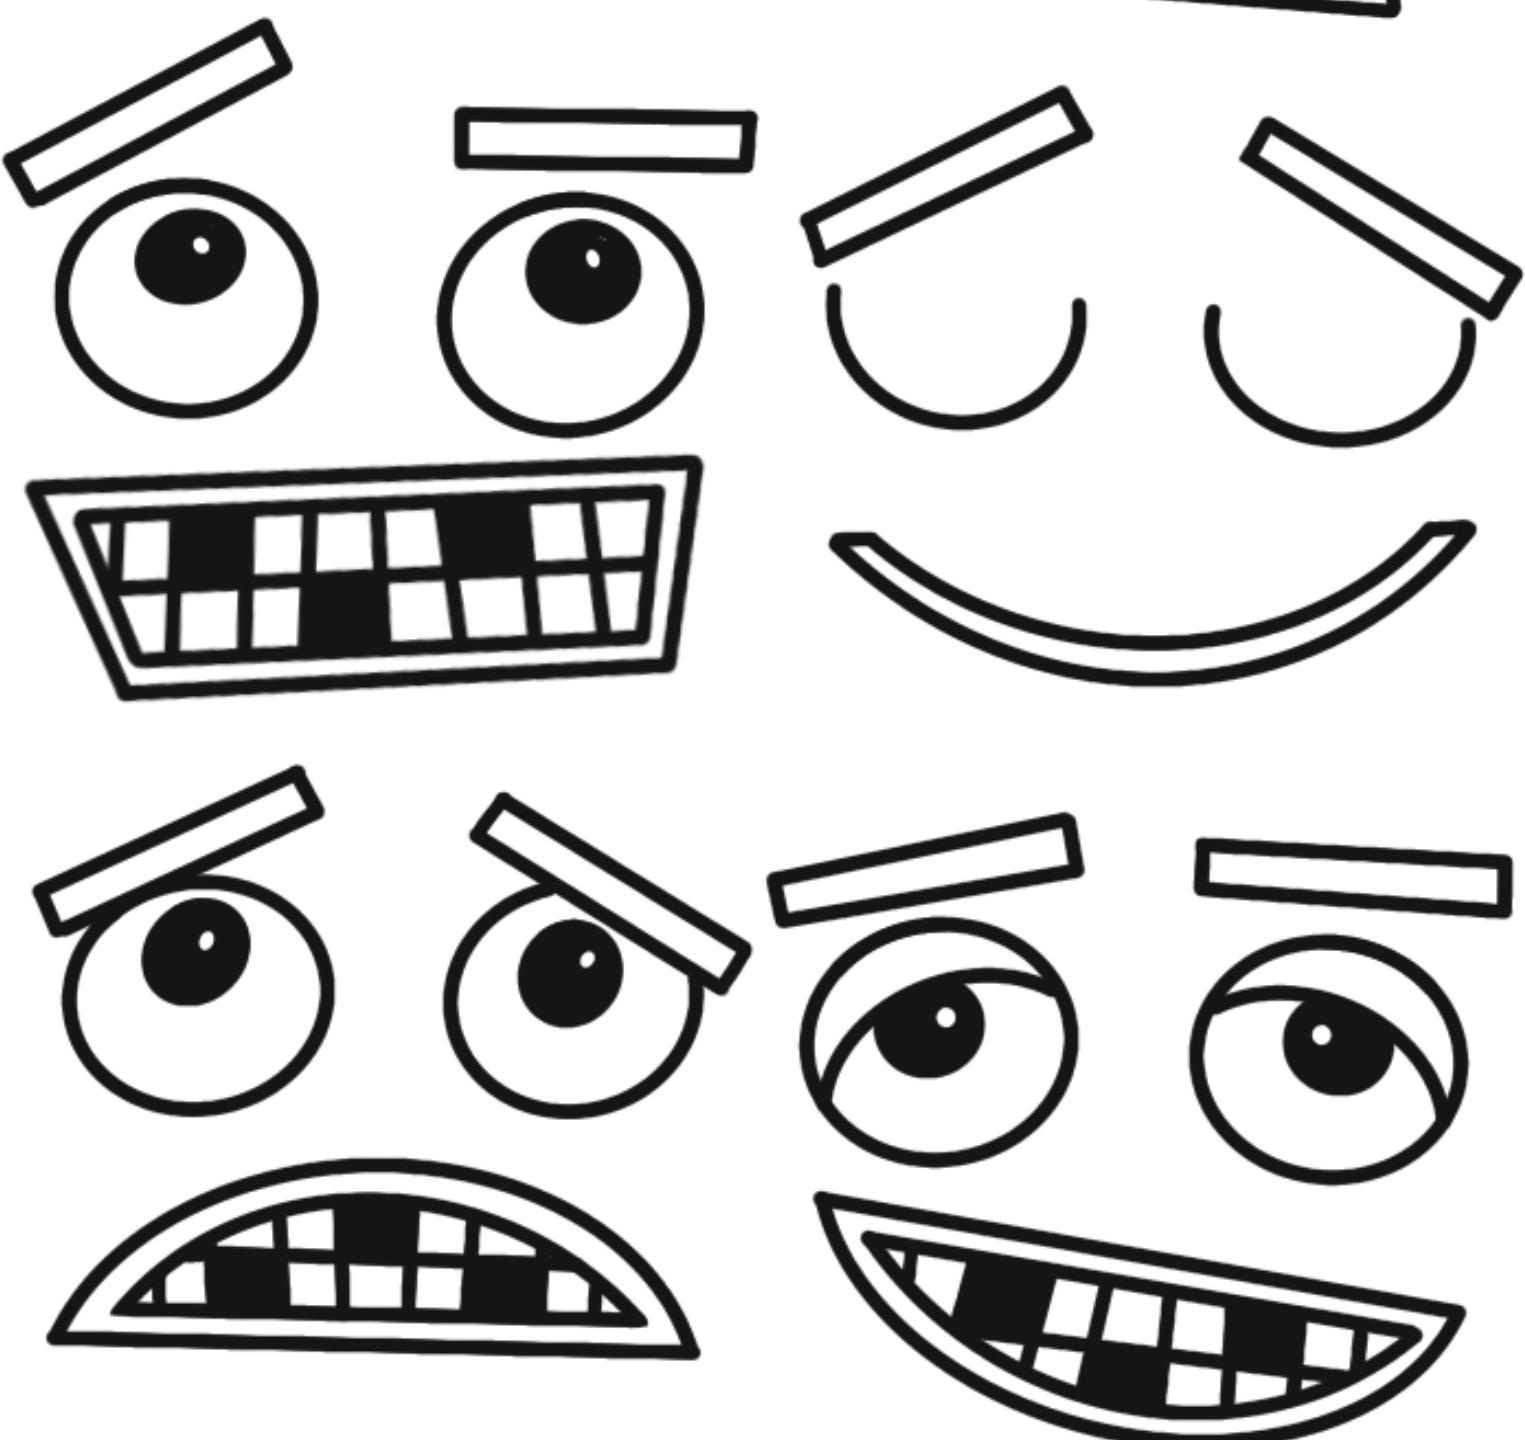

6. Add audio sound effects whenever a button is pressed
